Bloomberg has chosen MCG Energy Solutions as its new source for public North American power industry data. Using Innotap's best in class PowerFeed™ API, MCG feeds real-time power market data from all North American ISO/RTOs into the Bloomberg Terminal and Bloomberg Professional Services. Innotap is a subsidiary of MCG.

As of June 30, 2021, this data is available to all Bloomberg Terminal and Bloomberg Professional Services clients. MCG is excited to display high quality power market data on the Bloomberg Terminal. Innotap delivers reliable, high availability, scalable, timely and accurate data, underpinned by exceptional customer service.

To access Innotap's North American power data on the Bloomberg Terminal users can type "Innotap" and load chosen daily frequency tickers.
